

"These lights reveal subtleties in paintings you just don't see with ordinary lights.

I think we are seeing, truly for the first time, what the artist really wanted us to see."

Pat Trenton, Ph.D.

Artist: Vanessa Rothe

Superior lighting in the studio and on location

The Easel Light is designed with the latest LED and optical technology to evenly illuminate an artist's surface, from edge to edge. In addition to working well for nocturnes, this easel light is also an exceptional solution for poorly lit studios.

Revelite's Easel Light (EL) provides an opportunity for a consistent lighting environment as a painting transitions from a blank canvas to the wall of a collector's home.

- Exceptional light quality
- Even illumination
- High CRI and R9 value
- Mounts to easel, pochade box or wall
- Strada easel adapter available
- Available in 12" 24" 36"
- Battery optional
